**Think Like a Monk**-Jay Shetty 2020-09-08 Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, On Purpose, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

**No One Understands You and What to Do About It**-Heidi Grant Halvorson 2015-03-24 Have you ever felt you're not getting through to the person you're talking to, or not coming across the way you intend? You're not alone. That's the bad news. But there is something we can do about it. Heidi Grant Halvorson, social psychologist and bestselling author, explains why we're often misunderstood and how we can fix that. Most of us assume that other people see us as we see ourselves, and that they see us as we truly are. But neither is true. Our everyday interactions are colored by subtle biases that distort how others see us—and also shape our perceptions of them. You can learn to clarify the message you're sending once you understand the lenses that shape perception: • Trust. Are you friend or foe? • Power. How much influence do you have over me? • Ego. Do you make me feel insecure? Based on decades of research in psychology and social science, Halvorson explains how these lenses affect our interactions—and how to manage them. Once you understand the science of perception, you'll communicate more clearly, send the messages you intend to send, and improve your personal relationships. You'll also become a fairer and more accurate judge of others. Halvorson even offers an evidence-based action plan for repairing a damaged reputation. This book is not about making a good impression, although it will certainly help you do that. It's about coming across as you intend. It's about the authenticity we all strive for.

When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she'd traveled too far, if there was still a way home. "Beautiful and propulsive. . . . **You're Not Listening**-Kate Murphy 2020-01-07 When was the last time you listened to someone, or someone really listened to you? "If you're like most people, you don't listen as often or as well as you'd like. There's no one better qualified than a talented journalist to introduce you to the right mindset and skillset—and this book does it with science and humor." -Adam Grant, #1 New York Times bestselling author of Originals and Give and Take \*\*Hand picked by Malcolm Gladwell, Adam Grant, Susan Cain, and Daniel Pink for Next Big Ideas Club\*\* "An essential book for our times." -Lori Gottlieb, New York Times bestselling author of Maybe You Should Talk to Someone At work, we're taught to lead the conversation. On social media, we shape our personal narratives. At parties, we talk over one another. So do our politicians. We're not listening. And no one is listening to us. Despite living in a world where technology allows constant digital communication and opportunities to connect, it seems no one is really listening or even knows how. And it's making us lonelier, more isolated, and less tolerant than ever before. A listener by trade, New York Times contributor Kate Murphy wanted to know how we got here. In this always illuminating and often humorous deep dive, Murphy explains why we're not listening, what it's doing to us, and how we can reverse the trend. She makes accessible the psychology, neuroscience, and sociology of listening while also introducing us to some of the best listeners out there (including a CIA agent, focus group moderator, bartender, radio producer, and top furniture salesman). Equal parts cultural observation, scientific exploration, and rousing call to action that's full of practical advice, You're Not Listening is to listening what Susan Cain's Quiet was to introversion. **The Scout Mindset**-Julia Galef 2021-04-13 "...an engaging and enlightening account from which we all can benefit."—The Wall Street Journal A better way to combat knee-jerk biases and make smarter decisions, from Julia Galef, the acclaimed expert on rational decision-making. When it comes to what we believe, humans see what they want to see. In other words, we have what Julia Galef calls a "soldier" mindset. From tribalism and wishful thinking, to rationalizing in our personal lives and everything in between, we are driven to defend the ideas we most want to believe—and shoot down those we don't. But if we want to get things right more often, argues Galef, we should train ourselves to have a "scout" mindset. Unlike the soldier, a scout's goal isn't to defend one side over the other. It's to go out, survey the territory, and come back with as accurate a map as possible. Regardless of what they hope to be the case, above all, the scout wants to know what's actually true. In The Scout Mindset, Galef shows that what makes scouts better at getting things right isn't that they're smarter or more knowledgeable than everyone else. It's a handful of emotional skills, habits, and ways of looking at the world—which anyone can learn. With fascinating examples ranging from how to survive being stranded in the middle of the ocean, to how Jeff Bezos avoids overconfidence, to how superforecasters outperform CIA operatives, to Reddit threads and modern partisan politics, Galef explores why our brains deceive us and what we can do to change the way we think.

**How to Get Whatever You Want**-M. R. Kopmeyer 1972 See the uniform title.

**Talking to Strangers**-Malcolm Gladwell 2019-09-10 Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers—and why they often go wrong. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller David and Goliath, Malcolm Gladwell has written a gripping guidebook for troubled times.

**What Were We Thinking**-Carlos Lozada 2021-10-12 In this "crisp, engaging, and very smart" (The New York Times Book Review) work, The Washington Post's Pulitzer Prize-winning book critic digs into books of the Trump era and finds that our response to this presidency often reflects the same polarization, contradictions, and resentments that made it possible. It is an irony of our age that a man who rarely reads has unleashed an onslaught of books about his tenure and his time. Dissections of the white working class. Manifestos of political resistance. Works on identity, gender, and migration. Memoirs on race and protest. Revelations of White House mayhem. Warnings over the future of conservatism, progressivism, and of American democracy itself. As a book critic for The Washington Post, Carlos Lozada has read just about all of them. In What Were We Thinking, he draws on some 150 recent volumes to explore how we understand ourselves in the Trump era. Lozada's characters are not the president, his advisers, or his antagonists but the political and cultural ideas at play—and at stake—in America. Just as Trump's election upended the country's political establishment, it shocked its intellectual class. Though some of the books of the Trump era skillfully illuminate the challenges and transformations the nation faces, too many works are more defensive than incisive, more righteous than right. Lozada offers a provocative argument: Whether written by liberals or conservatives, activists or academics, true believers or harsh critics, the books of Trump's America are vulnerable to the same failures of imagination that gave us this presidency in the first place. In What Were We Thinking, Lozada's selections range from bestselling titles to little-known works, from thoroughly reported accounts of the administration to partisan polemics, from meditations on the fate of truth to memoirs about enduring—or enabling—the Trump presidency. He also identifies books that challenge entrenched assumptions and shift our vantage points, the books that best help us make sense of this era. The result is an "elegant yet lacinating" (The Guardian) intellectual history of our time, a work that transcends daily headlines to discern how we go here and how we thought here. What Were We Thinking will help today's readers understand America, and will help tomorrow's readers look back and understand us.

**What Are You Going Through**-Sigrid Nunez 2021-09-07 NAMED A BEST BOOK OF 2020 BY NPR, PEOPLE, AND O, THE OPRAH MAGAZINE A NEW YORK TIMES CRITICS' TOP BOOK OF 2020 NATIONAL BESTSELLER "As good as The Friend, if not better." --The New York Times "Impossible to put down. . . leavened with wit and tenderness." --"People "I was dazed by the novel's grace." --The New Yorker The New York Times-bestselling, National Book Award-winning author of The Friend brings her singular voice to a story about the meaning of life and death, and the value of companionship A woman describes a series of encounters she has with various people in the ordinary course of her life: an ex she runs into by chance at a public forum, an Airbnb owner unsure how to interact with her guests, a stranger who seeks help comforting his elderly mother, a friend of her youth now hospitalized with terminal cancer. In each of these people the woman finds a common need: the urge to talk about themselves and to have an audience to their experiences. The narrator orchestrates this chorus of voices for the most part as a passive listener, until one of them makes an extraordinary request, drawing her into an intense and transformative experience of her own. In What Are You Going Through, Nunez brings wisdom, humor, and insight to a novel about human connection and the changing nature of relationships in our times. A surprising story about empathy and the unusual ways one person can help another through hardship, her book offers a moving and provocative portrait of the way we live now.

**What Got You Here Won't Get You There**-Marshall Goldsmith 2010-09-03 Your hard work is paying off. You are doing well in your field. But there is something standing between you and the next level of achievement. That something may just be one of your own annoying habits. Perhaps one small flaw - a behaviour you barely even recognise - is the only thing that's keeping you from where you want to be. It may be that the very characteristic that you believe got you where you are - like the drive to win at all costs - is what's holding you back. As this book explains, people often do well in spite of certain habits rather than because of them - and need a "to stop" list rather than one listing what "to do". Marshall Goldsmith's expertise is in helping global leaders overcome their unconscious annoying habits and become more successful. His one-on-one coaching comes with a six-figure price tag - but in this book you get his great advice for much less. Recently named as one of the world's five most-respected executive coaches by Forbes, he has worked with over 100 major CEOs and their management teams at the world's top businesses. His clients include corporations such as Goldman Sachs, Glaxo SmithKline, Johnson and Johnson and GE.

**How to Do Nothing**-Jenny Odell 2020-12-29 After the American presidential election of 2016, Jenny Odell felt so overstimulated and disoriented by information, misinformation, and the expressions of others, that reality itself seemed to slip away. How To Do Nothing is her action plan for resistance. Drawing on the ethos of tech culture, a background in the arts, and personal storytelling, Jenny Odell makes a powerful argument for refusal: refusal to believe that our lives are instruments to be optimised. She argues that nothing can be quite so radical as doing... nothing.

**The Scout Mindset**-Julia Galef 2021-04-13 "...an engaging and enlightening account from which we all can benefit."—The Wall Street Journal A better way to combat knee-jerk biases and make smarter decisions, from Julia Galef, the acclaimed expert on rational decision-making. When it comes to what we believe, humans see what they want to see. In other words, we have what Julia Galef calls a "soldier" mindset. From tribalism and wishful thinking, to rationalizing in our personal lives and everything in between, we are driven to defend the ideas we most want to believe—and shoot down those we don't. But if we want to get things right more often, argues Galef, we should train ourselves to have a "scout" mindset. Unlike the soldier, a scout's goal isn't to defend one side over the other. It's to go out, survey the territory, and come back with as accurate a map as possible. Regardless of what they hope to be the case, above all, the scout wants to know what's actually true. In The Scout Mindset, Galef shows that what makes scouts better at getting things right isn't that they're smarter or more knowledgeable than everyone else. It's a handful of emotional skills, habits, and ways of looking at the world—which anyone can learn. With fascinating examples ranging from how to survive being stranded in the middle of the ocean, to how Jeff Bezos avoids overconfidence, to how superforecasters outperform CIA operatives, to Reddit threads and modern partisan politics, Galef explores why our brains deceive us and what we can do to change the way we think.

**Talking to Strangers**-Malcolm Gladwell 2019-09-10 Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers—and why they often go wrong. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller David and Goliath, Malcolm Gladwell has written a gripping guidebook for troubled times.

**What Were We Thinking**-Carlos Lozada 2021-10-12 In this "crisp, engaging, and very smart" (The New York Times Book Review) work, The Washington Post's Pulitzer Prize-winning book critic digs into books of the Trump era and finds that our response to this presidency often reflects the same polarization, contradictions, and resentments that made it possible. It is an irony of our age that a man who rarely reads has unleashed an onslaught of books about his tenure and his time. Dissections of the white working class. Manifestos of political resistance. Works on identity, gender, and migration. Memoirs on race and protest. Revelations of White House mayhem. Warnings over the future of conservatism, progressivism, and of American democracy itself. As a book critic for The Washington Post, Carlos Lozada has read just about all of them. In What Were We Thinking, he draws on some 150 recent volumes to explore how we understand ourselves in the Trump era. Lozada's characters are not the president, his advisers, or his antagonists but the political and cultural ideas at play—and at stake—in America. Just as Trump's election upended the country's political establishment, it shocked its intellectual class. Though some of the books of the Trump era skillfully illuminate the challenges and transformations the nation faces, too many works are more defensive than incisive, more righteous than right. Lozada offers a provocative argument: Whether written by liberals or conservatives, activists or academics, true believers or harsh critics, the books of Trump's America are vulnerable to the same failures of imagination that gave us this presidency in the first place. In What Were We Thinking, Lozada's selections range from bestselling titles to little-known works, from thoroughly reported accounts of the administration to partisan polemics, from meditations on the fate of truth to memoirs about enduring—or enabling—the Trump presidency. He also identifies books that challenge entrenched assumptions and shift our vantage points, the books that best help us make sense of this era. The result is an "elegant yet lacinating" (The Guardian) intellectual history of our time, a work that transcends daily headlines to discern how we go here and how we thought here. What Were We Thinking will help today's readers understand America, and will help tomorrow's readers look back and understand us.
